Personal Profile

I have applied for this role because software development/ web development has always peaked my interest. I also am doing a course with Coding Institute, which is a full stack web developer course as I explain in the education section. I have knowledge on how to write HTML and CSS, but I also am learning javascript and python currently, I also think taking this opportunity will increase my knowledge further and also develop my career faster. I believe this is a really good opportunity to further my knowledge and pursue a career in software development.

I am a committed, enthusiastic and trustworthy person who is self-motivated and determined to succeed at the highest level. I am currently seeking an opportunity to train on the job and get qualified as an individual or as part of a team. I am patient, honest and a very good listener and dedicated to any tasks I am set. I offer a professional, mature and confident approach to work. I would welcome the opportunity to prove to you that I am worth employing.

Key Skills / Achievements

- Excellent communication skills.
- Organised, punctual and able to manage time effectively.
- Self-starter and takes initiative.
- Versatile, and able to multitask.
- Professional customer service skills
- HTML/CSS knowledge

Work Experience

Covid 19 test site worker

October 2020 to present

- I am currently working in Covid 19 tests sites, my role involves explaining how to take tests to individuals and disinfecting contaminated areas once they have completed their test.

General Labourer flanagan's -

Liverpool January 2020 to June 2020

- At this job i was a general labourer and i was set things to do such as clean, load and unloading vans, and i had to transport equipment and materials from one part of site to another.
- due to covid-19 i have lost my job.

KFC Team Leader KFC -

Liverpool March 2019 to December 2019

- As a cook I had to ensure that the product I was cooking was always available and that to ensure there was enough product for the amount of customers we were going to have for the day.
- Also as a cook i had to ensure i was following all food hygiene procedures were being followed, to make sure the flour was mixed and filtered properly as i was taught, also i would make sure i took all the temperature of the product i was cooking was hitting the correct temperature to make sure i would not be undercooked or either over cooked.

- At this time i would also make sure all the defrost was getting put in the right fridges and there was no cross contamination occurring, i would also have to clean the gillets out of the chicken and the kidneys.
- Also I was seen as learning very fast and they decided to train me in more areas of the shop such as the middle of house and front of house, at this time I was taught how to pack orders, what was on our menu and prices of the menu.
- At this time my manager saw how quick i was progressing and offered me a team leader role.
- as a team leader i was taught shift management on how to control a shift and use the team to the best of their abilities, i was also taught about money management, which consisted of taking tills off and putting them on, how to work the safe and the system they used to put all the cash flow they received off the tills. with this also came one to counting the safe and how to follow the procedures

Dog Trainer:

Self Employed (2015-2018), Indonesia

- Set up my own dog walking and training business, training 10-20 dogs per week.
- Specialised in training dogs that were abused and used for dog fighting.
- Walked the dogs twice every day, bathed and fed dogs and ensured their health and wellbeing was maintained at all times.
- Managed social media channels including Instagram for promotion.
- Responsible for all business promotion including creating business cards, meeting new dog owners, designing posters and developing partners.
- Rescued dogs from abusive owners and co-ordinated moving dogs into new homes.

School Holiday Club Activity Leader (voluntary)

(2012-2013), Bolton UK

- Volunteered within the sports department at the holiday club.
- My main work duties, tasks and responsibilities included interacting and developing the skills of the children through hard work and sports.
- My efforts were recognised and I was invited back a second year to work with the children.

Technician:

Alpha Electronics (July 2012), Bolton UK

- Work experience placement during school term in electrical engineering.
- Worked with technicians to calibrate instruments, solder and read meters.

Education

Coding institute

2020

I am also currently doing a course to become a full stack web developer, in this course I am learning certain parts of coding, such as HTML fundamentals, CSS fundamentals, which i have already completed. As of now I am currently studying User centric front end development. Also in my future modules i will be looking at JavaScript fundamentals, interactive frontend development, python fundamentals, data centric development and full stack frameworks with Django.
